BACKGROUND

Before I began coding I was a traveller, musician, student, videographer, and more. I enjoyed my various pursuits, but I knew I wanted to pursue a more technical field. Many free online tutorial courses later, I knew coding was the path for me. My enrollment at NSS has further clarified my passion for the fundamentals I have found in coding: problem solving, creativity, and logical reasoning.

SKILLS

- Convergent thinker
- Mentoring
- Quick learner
- Adaptive
- Self-management
- Spanish Speaking
- Teamwork

TECHNOLOGIES

- Javascript
- React
- HTML5
- CSS3
- SQL
- Python
- Django
- Git/Github
- JSON Server

EDUCATION

Nashville Software School
Full-stack Web Development Bootcamp
- Voted "The Investigator" & "Social director"

Columbia State Community College
- Winner of Who's Who Among Students 2017
- STEM Club President
- Phi Theta Kappa Local & Regional Vice President
- Student Government Senator

SOFTWARE EXPERIENCE

FULL-STACK SOFTWARE DEVELOPER
NASHVILLE SOFTWARE SCHOOL

- Built front-end, back-end, and full-stack applications using HTML, CSS, Javascript, React, Python, and Django in individual and group based projects
- Remote learning and group work via Zoom

PERENNIAL

- Front-End React application with JSON Server designed for beginner gardeners with a user driven plant database
- Initialized Firebase user authentication with email or google sign in and register options
- Simultaneous search functionality
- Users can have unique relationships with plants

BANGAZON E-COMMERCE

- Full-stack application built with React, Ant Design, with a Django REST API back end framework
- Collaboratively created remotely in a group of five
- Organized delegation for issue tickets
- Implemented image upload , full CRUD functionality for sellable products, and delete functionality for orders.

SEEKER

- Full-stack application for simplified, efficient job seeking with a networking based approach
- Front-end built with React, Semantic UI, and React-strap
- Back-end built with Django REST API and Django ORM
- Full CRUD functionality
- Github project board management

PROFESSIONAL EXPERIENCE

ASSISTANT PHOTOGRAPHER & VIDEOGRAPHER
CANDIANI PHOTOGRAPHY

STEM TUTOR
COLUMBIA STATE COMMUNITY COLLEGE
